TMET AERO DESIGN

ABOUT US

TMet Aero Design (TMAD) is a student-led team focused on designing and producing remote-controlled aircraft for the **SAE Aero Design Series Competition**. For over 30 years, TMAD has empowered students from various academic backgrounds, allowing them to apply their **classroom knowledge** to solve **real-world problems**.

EXCELLENCE

Our team has consistently achieved remarkable success in competitions, including an impressive **2nd place in technical design report**, **3rd place in design presentation**, and **3rd place overall** in the Advanced Class category last year. These achievements have solidified TMAD's position as the **top North American Aero Design team**, showcasing our exceptional effectiveness in the field.

THE COMPETITION

The competition, designed by **industry professionals**, emphasizes **education** and **hands-on experience**. Its rules condense a full **aircraft development** program into one year, reflecting the initial stages of **system engineering** and **requirements derivation**. By participating, students gain **valuable knowledge** and **skills** in conceptual design, manufacturing, system integration/testing, and verification through practical demonstrations.

TMET AERO DESIGN

LEARNING OBJECTIVES

By engaging in the engineering design process, students acquire essential skills including:

- Project management, budgeting, communication, and resource management expertise
- Collaborative teamwork dynamics
- Hands-on design, construction, and performance testing of real vehicles
- Development and preparation of meticulous technical documentation

HOW YOU CAN HELP

	FIRST CLASS (\$2500)	BUSINESS CLASS (\$1000)	PREMIUM ECONOMY CLASS (\$750)	ECONOMY CLASS (\$500)
